

Burning human beings for money

Before the revolution in Iran, the regime of the Shah under the orders of its advisers American, Israeli and European fattened the current Islamic leaders of Iran to frighten the population of communism.

On August 19, 1978, a cinema where a film of the left was projected was set on fire in the city of Abadan (the majority of inhabitants are Arab) in south-western Iran. 600 people lost their lives in the fire. The instigator and mastermind was Khamenei band, the current leader of Iran.

In September 2016, the Iranian leaders organized a free and train trip to some Azerbaijani families from the city of Tabriz in Iran to the holy city of Mashhad in North-East of Iran for 11/25/2016. On November 25, 2016, in a collision between this train and the other train in the middle of the destination, 200 Azerbaijanis were burned alive. In this example too, one can see the hands of the Islamic leaders with the criminal mentality of Anti-Arab and Anti-Turk.

Every year in India, there are hundreds of train accidents with 15,000 deaths, never a fire in trains, above all, in sleeping car in the middle of the train.

On January 19, 2017, the PLASCO, 17-storey building in center of Tehran and close to the embassies of Turkey and England allegedly was burned with about tens of fire-fighters and civilian casualties.

Independent videos show explosions set on purpose on the lower floors.

In this shopping center, there were 400 garment factories with 4,000 workers who produced much of the clothes for the Iranians.

90% of non-food goods consumed in Iran come from foreign countries, especially from China, illegally by the Khamenei band and leaders of Revolutionary Guardians.

They do not pay taxes. They earn Billion Dollars without tax. If tens of thousands of production shops are closed in Iran, it is because of this mafia band.

Some of the roads in Bangladesh and the artificial islands in southern Arab countries of Iran were built with Iranian lands, sold by this mafia band.

These examples prove that the main profession of Iranian leaders burn human beings and steal public wealth and transfer these dollars to European and American banks.

Investment of the children of these criminals in Switzerland, France, England, Germany, Canada and the United States are testimonies.
