## *The 2018 Rigged Election in Iraq*

On May 12, 2018, in Iraq, there was the legislative election of 329 deputies for 4 years. The number of voters was 24.5 million and that of the candidates was 7000.

The election went through the voting machines, programmed to pull out the mercenaries of American, European and those of the oil companies, whatever the polls.

The organizers composed of the President of the Republic of Iraq (from Kurdish party of TALEBANI), the Prime Minister (Heider al ABADI) and a commission led by (Maan al HITAMI).

Under the orders of the Americans, the majority of the deputies of the northern half of Iraq should be the Kurdish deputies of Barezani and Talebani, especially in Kirkuk.

And to the south, the deputies must be Anti-Regime of Ayatollah of IRAN

At 7:00 pm on May 12, 2018, after the closing of the vote places, the CDs of 8443 voting machines sent to Baghdad and the director of the commission declared the results (faked) provisional.

From this moment, the demonstration of Turkmen and Arabs in Kirkuk and other cities begins.

They gather in front of the storage centers of the polls to prevent the displacement of the boxes towards Baghdad and the destruction of the evidences of the fraud. The event lasts 28 days 24 hours a day in Ramadan.

They demand the cancellation of the results by the machines and the manual counting.

The trick played out in 3 types:

- 1- In the south of Iraq, fill the vote boxes,
- 2- In the northern part of the Kurdish majority, change the CDs of the machines and force the voters in the hospitals and prisons and especially the civil servants.
- 3- In Kirkuk and cities with Majority Turkmen and Arab, change the CDs of the machines with prepared CDs.

To prepare the faked CDs of Kirkuk and other cities of the north before election, instead of sending them directly to these cities, the machines sent to Suleymaniye (Kurds of Talebani) supposedly to control, but in reality to prepare the rigged CDs with the identity of the machines, and after to Kirkuk and other cities.

In Kirkuk, there were 2196 voting machines, whose 1143 CDs of them are false.

The scammers who did not think of such a demonstration, first of all, ordered some soldiers who shoot in the air to scare and disperse the protesters, but without result.
